DEMONSTRABLY SUPERIOR, PLEASINGLY DIFFERENT

Quite simply, it says everything you need to know about what drives the development and design of Callaway. It not only represents the kind of quality performance every golfer deserves, it's also about who and what we design for in the first place. If it meets the demands of the best players in the world, we feel confident in offering it to golfers everywhere.

ENJOY THE GAME.

A basic idea that is the backbone of Callaway Golf Company. Ely Callaway believed the game of golf should be enjoyable for everyone, young, old, man, woman, amateur or professional. So he set out to build a company that would make golf clubs and golf balls that were the most forgiving in the history of the game - and he succeeded. For all who play with Callaway Golf clubs and balls, scores and handicaps vary but the essential reward is always the same - the pleasing sensation of those well struck shots, it's what brings people back to the game.

1982 - 2001

In 1982, Ely Callaway became founder and CEO of what would become the Callaway Golf Company. Beginning with an investment in a tiny manufacturer of hickory-shafted wedges and putters, he grew the Company into the world's largest manufacturer of golf clubs by 1996. Until his retirement in 2001, he served as President, CEO and Chairman of the Board. Mr Callaway passed away at age 82 in the same year.
